Attached are 62-109060 2230 and 2314.

~~Notations added~~ to the record state that a copy was removed and kept in the Director's office and one was removed and kept in the Deloach office.

These files have not been searched in compliance with my King or JFK requests despite my repeated appeals, going back to about 1976, certainly not later than 1977, on which you have not yet acted.

With Serial 2314 the only copy of the attachment was removed from Central Files and kept in the Deloach office.
